

#### Jim Farley Almost Certain to Quit As Postmaster General

WASHINGTON - It now seems almost certain that big, bald, bland Jim Farley will step out of his job as Postmaster General very soon after Congress adjourns.

here are several reasons for this. One is that Jim is spending considerable more although some people around Jim may have made money, he himself is not a wealthy man.

Another reason is the necessity to trim political fences in paign. As continuing Chairman Committee, Jim will give all his time to this.

Then there is the very important reason that Jim has become (something of a political liability in the New Deal Cabinet. Resentment against him is considerable in almost every part of the country. A lot of people think there is real smoke behind the Huey Long

And finally, Jim is just plain tired. He is tired of taking the rap for a lot of things for which he is not responsible. He is tired of being the President's Trigger Man.

The issue is Title 2 of the bill, which is the heart of the whole thing and provides for the central bank. The fight is chiefly between two veteran Democrats, fiery Carter Glass of Virginia, chairman of the sub-committee, and doughty Duncan U. Fletcher of Florida, chairman of the full cemmittee.

etcher is accusing Glass of unduly dragging out the hearings, loading these hearings with or position witnesses, making it appear that the central bank provision has no friends among bankers and businessmen.

Fletcher even went so far as to warn Glass that unless hearings were concluded by today (May 27), he would ask the full committee forcibly to take the bill out of Glass' sub-committee. If the Virginian calls for a show-down, the smouldering volcano is sure to erupt.

But even if the explosive spark is avoided, a bitter alignment looms on the controversial Title 2. A poll of the Committee indicates that it will decide for or against this provision by a one or two-vote

#### International Push

Senator Tydings' plea for an international conference, by which the United States would cancel war debts in return for European disagrament, was not a hap-harzard gesture.

It had been carefully timed to click on the same day Hitler made his startling revelation that Germany was ready to disarm if given a revision of the Versailles Treaty.

#### MOTORING COURTESY

SINCE the dawn of history the training and education of children has been influenced by the logical assumption that they would take their places fin a world of men and women who move about on foot. Now the time has come for a doparture from the custom or the ages. It is even more important, according to scientific authority, to train the mind of a child so that eventually he will be at home and will function efficiently in a world filled with human beings who whirl hither and you in high-powdered motor cars.

In order that it may meet the needs of modern cociety, the new education must take into account, the scientist say, that at an early ege the youngster probably will be at time; find his capacity mechanically augmented to control 100 horsepower at 60 to 80 miles an hour. The results of a scientific study of these human tendencies have been revealed by Robbins B. Stoeckel, Yale research associate on highway transportation, who urges that character education of school children emphasize the moral responsibility involved in the operation of an automobile.

"About 15 per cent of all motor operators," Dr. Stoeckel finds, "are imperfect and must be made over. Their personalities must be changed. There never will be any great improvement in the motor vehille accident kituation unless specialized character education, with highway safety in mind, is undertaken as part of the education program in the schools."

The proposal to completely make over those numerous motorists, it irritated Val to note that while the who are dangerously deficient in one respect or another is handly within the bounds of gossibility. It is possible, however, to train the young so that they will realise more fully in their mature years their moral responsibility for the safety of others, at least insofar as their operation of an automobile is concerned. Training in motoring courtery is one way of safeguarding human life.

CHAPTER 12 READ THIS FIRST.

After bidding goodby in a huff to his childhood sweethcart, Janue Edding, who is sailing for the United States where her father, Captain Edding, has been assigned to Puget Sound Navy Yard, carefree Lieutenant Valenting Preston, attached to a gunboat in China, sees an attractive girl in a passing ricksha on the streets of Shanghai. He recognizes her as the same girl who had delayed his visit to Janiec's liner in the harbor by taking the last sampan in sight from the pier. Following in unother ricksha, both alloht at the same hotel. They become enouged in conversation, have a cocktail together and Val learns she is from South Carolina. Later he excuses Finding the girl still in the cocktan lounge alone, Vat joins her weath and discovers her name is Lin Garenne. She says she is touch and they agree to take dinner together later. As he dresses Val is irked bu the thought that Kent Townley, another naval lieutenant, whom he dislikes, is sailing on the same liner with Janiec. Meeting Liu, dressed for the evening, in the lobby, he is impressed with her loveliness. After dinner and dancing at a night club Val and Lia go for a drive in the moonlight. Then she tells him something about herself. Lia explains her father, a well known explorer, is in the Gobi desert and that her aunt, with whom she has lived. is in Pripirg. "Pure Dye" and "Weighted" Sak "Pure dye" and "weighted" are two terms frequently encountered by the purchaser of silk products, yet it is safe to say that few understand the meaning of these expressions.

Many people state that they are uncorafortable in a room, especially at night, unless a window is open admitting fresh air. The feelings are correct but not the reason, as this condition is due to a lack of a circulation in the room-not to a ack of oxygen. This fact has been proved time after time by simple experiments.

The subjects were placed in an airtight calanet and allowed to remain there until the air was many times worse than that found in crowded public places, with no ventilation, having a much lower oxygen and a higher carbon dioxide content. At a time when the subjects ex-

#### MOTORING COURTESY

CINCE the dawn of history the training are education of children has been influenced by the logical assumption that they would take their places in a world of men and women who move about on foot. Now the time has come for a departure from the custom of the ages. It is even more important, according to scientific authority, to train the mind of a child so that eventually he will be at home and will function efficiently in a world filled with human beings who whirl hither and you in high-powdered motor cars.

In order that it may meet the needs of modern society, the new education must take into account, the scientist say, that at an early age the youngster probably will be at times find his capacity mechanically augmented to control 100 horsepower at 60 to 80 miles an Annoyed, Val orders the chauffeur to and let them flow at will. hour. The results of a scientific study of these human tendencies have been revealed by Robbins B. Stoeckel, Yale research associate on highway transportation, who urges that character education of school children emphasize the moral responsibility involved in the operation of an automobile.

"About 15 per cent of all motor operators," Dr. Stoeckel finds, "are imperfect and must be made over. Their personalities must be changed. There never will be any great improvement in the motor vehi le accident situation unless specialized character education, with highway safety in mind, is undertaken as part of the education program in the schools."

The proposal to completely make over those numerous motorists | it irritated Val to note that while the "Oh, Val, don't leave me," she whim- had she been cheated of a wedding who are dangerously deficient in one respect or another is hardly within the bounds of cossibility. It is possible, however, to train the young so that they will realise more fully in their mature years their moral responsibility for the safety of others, at least insofar as their operation of an automobile is concerned. Training in motoring courtery is one way of safeguarding human life.

# BELLE BURNS GROMER

After bidding goodby in a huff to his childhood sweetheart, Janice Edding, who is sailing for the United States where her father, Captain Edding, has been assigned to Puget Sound Navy Yard, carefree Lieutenant Valentine Preston, attached to a gunboat in China, sees an attractive girl in a passing ricksha on the streets of Shanghai. He recognize. her as the same girl who had delayed his visit to Janice's liner in the harbor by taking the last sampan in sight from the pier. Following in another ricksha, both alight at the same hotel. They become engaged in conversation, have a cocktail together and Val learns she is from South Carolina. Later he excuses Finding the girl still in the cocktan lounge alone, Val joins her again and discovers her name is Lia Garenne. She says she is lonely and they agree to take dinner together later. Pickaway-co's three track himnaries, Howard White and John Griffith of this city and Ellsworth Trego of Commercial Point, did well and not so well in Saturday's big track meets.

White broke his own record for the broad jump in the Buckeye Athletic association meet at Athens with Ohio university winning the BAA championship. Miami was second, Ohio Wesleyan third and Cincinnati fourth.

White leaped 23 feet 3 1-8 inches; his former mark was 22 feet 11 1-4 inches.

#### Armbrust is High

Holder of the individual record for two years. White was forced to relinquish his claim Saturday to Elden Armbrust, Washington C. H. star now an Ohio U. senior. Armbrust tallied 17 points taking firsts in the 100-yard dash and 220-yard low hurdles, second in the 220yard dash and a tie for second in he pole vault.

White won the broad jump, the 120-yard high hurdles and was second in the 220-yard low hurdles.

John Griffith, carrying the colors of the Red and Black of the high school, led at the third hurdle in the 220-yard low hurdle event of the Ohio high school meet Saturday but tried to change his stride and finished out of the money.

It was Griffith's first defeat of the year in that event. Gedeon of Cleveland West won

the event in 26 seconds a time that Griffith is easily capable of doing. Trego won some points for Capital university in the Bix Six meet at Wooster.

He was third in the broad jump and tied for second with six other athletes in the high jump. Oberlin won the meet.

**Myatt to Giants** 

"Kicked Up Hill" might be the name given the deal Glenn Myatt, veteran American league catcher, has figured in-Fired by Manager Walter Johnson last week "for the good of the club", Myatt today had

Glenn Myatt

signed with Bill Terry and his rampaging New York Giants, apparently pennant-bound—'Twould be funny if the Giants and the Indians tangled in the World Series.

#### Richards to Mack

Paul Richards, who has been understudy to Catcher Gus Mancuso of the Giants, has been released to Connie Mack's Philadelphia Athletics —Mack also made an offer for Myatt -Richards is a former Minneapolis star.

#### Birds Hustling Club

Saw the Red Birds for the first time Sunday and was impressed by just one thing, the team's hustle and fight-The Birdies had to come from behind to win the first contest but iced the second one safely in the third frame when 11 runs crossed the plate-Winsett, big outfielder, looks like a slugger and so does Hassett while Gutteridge and Ankenman have the apperrance of fine infielders although neither had anything difficuit to handle Sunday-Anderson looked terrible on second base, but then he is no second baseman-You must give him credit for trying anywhere he is assigned.

#### Meet Central Five

The high school golf team. John Jenkins, Chuck Styers and Harry Richey, tangle with Columbus Centrai's crack team this afternoon on the Pickaway Country Club course The Tigers won the CBL title last week. \* \* \*

Odds 8 to 5 Today; Believe 30,000 Will See Fight In Polo Grounds

NEW YORK, May 27-Maybe

it's the fact that they're beginning to sense that something historic impends, maybe it is that the young men have already made two excellent fights and ought to be good for a third. Anyhow, the town this morning was giving a very brisk play to the Jimmy Me-Larnin-Barney Ross welterweight | hampionship scheduled for the Polo Grounds tomorrow night, the fficial estimate indicating a crowd of 30,000, many of them convinced that this is to be a requiem for a id favorite But it may turn out to be a reprieve.

McLarnin, the champion whose record is that he always gives them a show, is down in the betting at 8-5 and the general feeling is that James, the man who lived by the punch, now must die that

However, there is the testimony presented by his gnarled, old leatherface of a manager. Charley "Pop" Foster, who seldom is wrong. He says it's an "easy fight," that McLarnin will win "the right way this time," meaning by a knockout inside of the fifteen-round limit. Pop goes further and advises a few bets, which is a little unusual. The man's devotion to money being so marked that he doesn't even like his far west as California. friends to lose it.

League to Begin Operations At 6:30; Oils and Dairy Team Meet Tuesday

Delayed an entire month by rain and high water the city recreation ball league lid will be pried off this evening when the Jones Specials, colored team, and the Eshelman Feeds tangle on the S. O. Electric company field.

The game starts at 6:30 with umpires to be chosen by the two managers, Alfred Jones and Howard Goldsberry.

#### Jones vs. Purcell

Opposing pitchers will be Bob Jones for the Specials and Carr Purcell for the Feeds. Jones hurled last year for the Specials under the Given Oil Co. name while Purcell has been the mainstay of the Feeds for several years. He has been given a job at the Eshelman

#### LONGEST HOME RUN

PITTSBURGH, May 27-Experts today had estimated that one of the three homers Babe Ruth socked here at Forbes field last Saturday was the longest ever hit in the park-600 feet Not only did the swat clear the top of the right field stands but also the street, struck a housetop and gave a mighty bound which hit another housetop.

Pickaway-co's three track lumnaries, Howard White and John Griffith of this city and Ellsworth Trego of Commercial Point, did well and not so well in Saturday's big track meets.

White broke his own record for the broad jump in the Buckeye Athletic association meet at Athens with Ohio university winning the BAA championship. Miami was second, Ohio Wesleyan third and Cincinnati fourth.

White leaped 23 feet 3 1-8 inches; his former mark was 22 feet 11 1-4 inches.

#### Armbrust is High

Holder of the individual record

for two years, White was forced to relinquish his claim Saturday to Elden Armbrust, Washington C. H. star now an Ohio U. senior. Armbrust tallied 17 points taking firsts in the 100-yard dash and 220-yard low hurdles, second in the 220yard dash and a tie for second in the pole vault. White won the broad jump, the

120-yard high hurdles and was second in the 220-yard low hurdles. John Griffith, carrying the col-

ors of the Red and Black of the high school, led at the third hurdle in the 220-yard low hurdle event of the Ohio high school meet Saturday but tried to change his stride and finished out of the money.

#### Takes First Defeat It was Griffith's first defeat of

the year in that event. Gedeon of Cleveland West won

the event in 26 seconds a time that Griffith is easily capable of doing. Trego won some points for Capital university in the Bix Six meet at Wooster.

He was third in the broad jump and tied for second with six other athletes in the high jump. Oberlin won the meet.

All Ohio Orchard Areas Report Good or Bumper Sets of Fruit; Moisture Aids

"Fruit crop prospects are more favorable than in years, and with ample soil moisture now present. Ohio fruit growers are looking forward to an excellent harvest.' This statement, by F. H. Beach, extension horticulturist for Ohio

State university, sums up reports received from scores of fruit growers in all parts of the state. Reports from surrounding states are similar in tone, he says.

In the Rome Beauty district of southern and southwestern Ohio, growers expect a good crop from all fall and winter varieties. Rome Beauty shows an excellent and uniform set throughout the district. The April freeze damaged Duchess most, and growers expect a half crop.

Transparent, Delicious and Stayman varieties are expected to yield a three-quarters crop, Beach says. The Grimes also is spotty, crop prospects being poor where good last year.

The peach crop was nearly wiped out in the southern section when heavy frost also damaged sweet cherries, plums and pears. A half crop of sour cherries is expected in the southern district.

From Cincinnati north in western Ohio, growers report favorable prospects for all fruits.

Apple prospects in central Ohio of Transparent, Wealthy, and cherry, and grape prospects are \$10.15. reported splendid. In northern Ohio trees are

blooming profusely, and if good weather prevails during the setting period, the crop will be large. Sweet cherries, however, were hurt somewhat by the freeze.

Throughout the state strawberries, raspberries, and grapes are expected to yield well except where drouth last year weakened the plants.

In unsprayed orchards the apple scrab fungus, promoted by wet weather, is expected to take a heavy toll, Beach concludes.

From the large number of recipes received in each class TIME IS HERE TO it was a difficult task for the HOLD GREAT PICNICS judge, Miss Mary Rusk, of the Home Service Department of the Gas Co. to select the winners but we are sure her decisions will be heartily endors-

Several of the menus, received were exceptionally good and these were given hotorable mention by the judge and are published in the pages of this recipe section.

The Herald takes this opportunity to thank Miss Rusk for her assistance in judging the recipes received and also for her assistance in helping select the many other recipes found in this section.

Through her cooperation we are able to publish recipes that have been carefully chosen and we are sure the women readers of The Herald will find this section quite helpful in making some tasty dish-

Checks have been mailed to all of the winners and The Herald wants to thank all the women who submitted recipes and regret that prizes could not be given for every one received.

The Herald believes the recipe section finds much favor with housewives of this locality, and we are deeply appreciative of the liberal response and the hearty cooperation of advertisers. Keep this section for ready reference in preparing your meals for the summer months. You will be well repaid.

# Best Recipes Submitted in Contest Presented Here

#### Urge Housewives to Try Them at First Opportunity

Practically all the recipes submitted in The Herald's cash prize contest are appetizing. To read them will make the housewife want to try them so The Herald is pub-

The most important angle of the entire contest, of course, is to put the recipe before the housewives who will use them.

Here is a partial list of the menus and recipes adjudged best.

# Millions of Women Insist on . .

# ICE for ECONOMY CONVENIENCE DEPENDABILITY QUANTITY

These are the four outstanding features of

# ICE REFRIGERATION

Economically it is the only refrigeration that you can use. For a few cents each day you can keep those perishable foods cold and pure.

Ice refrigeration requires about two visits per week from a ice service man if you have a modern ice refrigerator. And the ice service man does not have to service the ice-box right on the minute to insure safe and continuous food protection as is the case if a piece of machinery goes bad. And it is much more convenient to chip crystal-clear, odor and taste free ice than it is to freeze and harvest "milkly" impure ice. Ice is always dependable. You place a cake of ice in the box and you know that you are going to have regrigeration for those foods you want kept cold. It can't wear out and the machinery can't break down.

Ice for those cool summer drinks and no fear of the supply running low. Use it just as fast as you want and as much as you desire—yet you can always be sure of an ample supply delivered as soon as you want it. Just telephone 284 and you have an ice box full of clean pure ice.

#### PEANUT BUTTER **PUTS ON AIRS**

By Jean Allen

Developed and tested in the Kroger Food Foundation

There is more in a jar of peanut butter than just something to spread on bread. It is fine for that purpose, of course, and it provides a nourishing, flavorful lunch that appeals to children especially. But don't let the jar sit in the refrigerator between sandwiches, for peanut butter belongs in the diet as a real food and not just an "extra". Here are some ways of dressing it up for

#### PEANUT BUTTER SANDWICH BREAD

3 cups sifted pastry flour

1 cup graham or whole wheat bread flour

5 teaspoons baking powder

3 tablespoons butter 1 telaspoon salt

1-2 cup brown sugar

1-2 cup peanut butter 1-2-3 cups very cold milk

Sift the pastry flour, graham flour, baking powder ,and salt. Mix in the brown sugar and work in butter and peanut butter with finger tips. Cut in milk with a knife. (This dough is very thick). Toss onto floured Goard and knead slightly, but do not overmix. Place in a well greased and floured bread pan. Bake in a moderate oven (350 degrees F.) for about 1 hour. Makes one large loaf

#### PEANUT BUTTER CAKE

1-3 cup peanut butter

1 cup sugar

2 eggs 1 cup milk

1 teaspoon vanilla

2 cups cake or pastry flour

4 teaspoons baking powder

1-4 teaspoon salt

Cream peanut butter and sugar together. Add well beaten eggs, milk, vanilla, and the flour, baking powder, and salt sifted together. Pour into a greased and lightly floured loaf pan and bake in a moderate oven (350 degrees F.) for about 30 minutes. Ice with Peanut Mocha Icing.

Another trick that will make the family sit and take notice is

#### PEANUT MOCHA ICING

3 tablespoons hot strong coffee

1 tablespoon peanut butter 1-2 teaspoon Vanilla 2 cups confectioners sugar

Pour coffee over peanut butter. Add vanilla and sugar, and beat until creamy. Makes enough to ice one cake.

I will gladly send you some suggestions for inexpensive salad combinations if you will write me care of Dept. G., 125 Government Square, Cincinnati, Ohio.

Women who are particular about the results obtained in their kitchen instinctively turn to quality-They must have tested and proven ingredients if the work they do in their kitchens gives the results desired. The quality of these foods can only be determined by constant and ever-watchful testing.

In order that housewives may be sure of the results which they obtain, they instinctively turn to Kroger for foods which have proven their value over a period of time. The service rendered by the Kroger Food Foundation is at the disposal of every housewife and recipes using quality and tested foods are free for the asking. We urge you to avail yourself of this modern and useful service,—the only one of its kind in the country—and see from the results you obtain in your own kitchen why wise and thrifty women come to Kroger's.
